Prices valid as from April 20, 2012

INTRODUCTION

to Catalogue Prices

1. **WWF Stamp-Catalogue Groth**

The numbering system of this Price List is based on the WWF Stamp Catalogue Groth 1969 - March 1998 and the supplements 1 - 7 from April 1998 - December 31, 2011.

2. **Catalogue Prices**

Our Catalogue Prices are retail prices for collectors.

We have established these prices by comparing the catalogues Michel Germany, Gibbons Great Britain, Scott USA and Yvert France. And also from Price-Lists we have received from dealers specialised in WWF stamps.

3 **Prices and Conversion**

The prices are in Swiss Francs and are net without any further discount. For the conversion to other currencies the exchange rate can be seen on a daily basis on the Internet site

<http://www.oanda.com/convert/classic>

4 **Webshop**

We have now also taken up all the Special Issues on our Webshop www.wwfstamp.com so that you can have a look at the pictures, the description and also the prices in EUR.

5 **Changes in Prices**

Any changes in prices as well as new items will be taken up in our Webshop as well as also on this Price List.

6 **Orders**

Orders can be placed directly on our Webshop www.wwfstamp.com, by e-mail to hans.groth@groth.ch or by telefax and post.

Special Issues

The items listed in this Price List are not part of the Official WWF Conservation Stamp Collection. But all of them are official issues from the respective Postal Administrations. They are in great demand by specialised collectors that wish to complete the WWF collection. All the issues also have the WWF Panda Logo.

1) Reprints & Errors

Various issues had to be reprinted. The reprints are always different from the initial issue. The reason for this is, that the first printing was sold out and the country authorised a reprint. Some issues had an error in the first print and a reprint was necessary. We take up the issues with errors in this list and the reprints in the Official WWF Stamp list.

3) Gutter Pairs & Blocks

Some countries issue the sheets of f.i. 50 stamps with a gutter in the middle of the sheets. So there are 25 stamps on the upper part of the sheet, then a gutter and another 25 stamps on the lower part of the sheet. This is for production purpose. The main purpose for the gutter, however, was to produce stamp booklets. Then the gutter was used to staple the stamps on the booklet without hurting actual stamps.

4) Stamp Booklets & Folders

In this section we only take up the Stamp Booklets and Folders that were produced by the Postal Administrations. There are either stamps included with the WWF Panda Logo or the WWF Panda Logo is on the Stamp Booklet. There are also privately produced Stamp Booklets which we do not list. A nice issue is also the Stamp Folder from Iran 2003.

9) Overprints perforated and imperforated

Overprints on the official WWF stamps were done by some countries due to the fact, that no more stamps were on stock for postage. Therefore an overprint was arranged. In most instances in very small quantities and it was very difficult to get these stamps from the countries because we were not informed about this in time

10) Specimen & Black Prints

Specimen issues were printed by some countries so that they did not need to send postally valid stamps for publications to stamp journalists. The Specimens were not valid for postage. The same applies for the black prints. Both Specimen and also Black Prints are rather rare, since only a small quantity is produced.

11) Stamp issues imperforated

Especially African countries issued not only perforated stamps, but also imperforated stamps. Usually these imperforated stamps were produced for high government officials and stamp journalists. These issues were re-sold at real high prices. Therefore some of the countries made these issues also available to the stamp trade. For a picture see page 19.

14) De Luxe Sheets

De Luxe sheets are issued especially by African Countries since many years. They were produced for high government officials. In the beginning they were not available to the stamp trade and came back only to the market at very high prices. For later issues the Postal Administrations also made them available for the philatelic trade.
